## Classification Notes

### Vague (0) characteristics observed in this dataset:

- No specific destination named, OR a destination so broad (e.g., "Africa," "Asia") that it provides no targeting value
- Missing 2 or more of: duration, timing, group composition, budget, interests
- A responder would need to ask multiple clarifying questions before giving useful advice

### Partial (1) characteristics observed in this dataset:

- Specific country or city is named
- At least 2 context details present (e.g., duration + travel month, or group size + activity type)
- Consistently missing personalization: no budget, unclear interests, no travel style stated
- A responder can give general itinerary suggestions but cannot fully personalize

### Detailed (2) characteristics observed in this dataset:

- Specific destination named
- 3 or more of the following present: budget, interests, travel style, group size/composition, specific needs or constraints
- A responder can give fully personalized, immediately actionable advice without asking clarifying questions
